Chlorine Bleach Sanitizing Solution

2

Description:

Chlor-San is a concentrated, stabilized, 10% sodium hypochlorite solution. Chlor-San is used as a Sanitizing Solution for low-temp dishwashing applications as well as Chlorine Bleach in Laundry Applications. EPA registered.

Properties:

Form:	Liquid	◆ Highly Concentrated for Economy.
Fragrance:	None	◆ Versatile.
Appearance:	Clear - Yellow	◆ Eliminates Odors.
		◆ Improves Brightness.
		◆ Kills Germs.

Directions:

Low Temp Warewash Sanitizing Solution

1. Dispense Chlor-San via a metered dispensing system.
2. Set the dispenser to dispense at a rate of 1 ml per 3 gallons of water.
3. After setting the dispenser at the prescribed level, check amount of active chlorine using chlorine test strips.
4. Reset the dispenser to dispense the proper amount of Chlor-San to register 100 ppm.

IMPORTANT: The tested level of active chlorine is the determining factor. Do not set the dispenser by volume.

5. The dispenser must be set by a professional technician and must be regularly maintained.
6. Use this product in conjunction with Cleaner Solutions Power Kleen Ultra Detergent and Power Dri rinse additive.

Commercial Laundry

1. Chlor-San should only be used with fabrics that may be bleached.
2. Use Chlor-San for commercial laundry operations in commercial laundry machines with dispensing equipment.
3. Use Chlor-San at a rate of 4 to 10 oz per 100 pounds of laundry.
4. Use Chlor-San in conjunction with Laundry Power, Laundry break and Soft 'n Sour.
