

**Power Dri**

Rinse Aid & Drying Agent

3**Description:**

This concentrated additive eliminates spotting and soap scum accumulations on dishes in all types of dishwashing operations. Power Dri is designed for use in automatic rinse injectors on commercial dishwashing equipment. Its special blend of wetting and rinsing agents also can be used in hand washing and added into rinse water sinks. It allows water to quickly run off dish and glass surfaces, even in hard water.

Properties:

Form: Liquid
Fragrance: None
Appearance: Blue

- ◆ **Eliminates water spotting on dishes.**
- ◆ **Creates sheeting action.**
- ◆ **Speeds the drying Process.**
- ◆ **Superior performance in hard water.**
